

# NIO

*Exceptional*

deJONG DUKE

# A PREMIUM COFFEE EXPERIENCE

*Versatile*

**Nio's design has won multiple awards, and it's easy to see why. It has the visual appeal of an espresso machine, and the flexibility to offer much more.**

Behind Nio's clean, pressed aluminum exterior lies the power to deliver exceptional coffee drinks, including ones with fresh milk. Delicious, foamy cappuccinos or creamy lattes. Plus, soluble drinks, hot water, or optional cold still and/or sparkling water.

This compact machine has a 360°-design, so it looks great anywhere. It combines the style of a professional espresso machine with a high-end coffee machine. Illuminated ingredient canisters, an adjustable dispense head and an intuitive interface make Nio a pleasure to use. Your customers deserve premium products, and Nio delivers.

When you link Nio to ConnectMe®, service is a breeze. Simply log in to perform routine maintenance. User statistics will also help you manage Nio's supplies and offerings.

# FEATURES

## 1. Fresh milk option

Consistent, quality milk foam for cappuccinos and latte macchiatos.

## 2. Illuminated ingredient canisters

Highlights the coffee beans and other ingredients. Easy to fill.

## 3. Adjustable dispense head

Adjusts for perfectly hot coffee or espresso with less splatter.

## 4. Front-accessible waste bin

Clean-up is simple, swift and keyless.

## 5. 360° Design

Nio looks great, anywhere you place it.

# RELIABLE, SMOOTH AND EASY MAINTENANCE

Our coffee machines are designed to stand the test of time.

They ensure smooth operation with reliable performance, easy maintenance, and low total cost of ownership (TCO). We believe in intuitive design that makes our products easy to use for customers, consumers, and technicians. Our ConnectMe solution empowers you to diagnose and solve problems remotely, enabling higher service at lower costs.

## CONNECT YOUR COFFEE MACHINE

ConnectMe is our two-way communication connectivity tool that helps you improve customer service and ensure hassle-free maintenance. When a coffee machine is connected to the internet, you can access all machine information by simply logging in. You can diagnose and solve problems without leaving your office. This allows you to help your customer while saving time and resources, so you can deliver higher service and lower costs.

With ConnectMe, you'll get to know your coffee machine(s) like never before. ConnectMe provides you with all the data to do preventive maintenance, like part replacement. Consumption data is also available, so you can plan cleaning during off-peak hours or put machines in energy-saving mode when they aren't being used.

Transform your coffee machines into interactive communication platforms and use ConnectMe for announcements, brand videos, and advertisements.

# YOUR CHOICE OF NIO TECHNOLOGY

*Bean-to-cup*

Adjust Nio to your needs with our various brewer options.

## **CoEx XL®**

Our CoEx XL technology has a “barista twist” that provides an even coffee bed for optimal extraction. Our patented pressure regulator guarantees consistent coffee quality every time. Recipes are easy to set up. Gram throw between 8 and 20 grams enables the preparation of two black coffees at once.

## **CoEx®**

CoEx technology is our patented brewing system that offers coffee (1-8 bar) or espresso (8-10 bar) with just one machine. The gram throw ranges from 5 to 10 grams. CoEx's reliable mechanism and easy-to-remove filter offer effortless maintenance. The entire unit can be cleaned with hot water.

# SUSTAINABILITY

We take pride in taking good care of our company, each other, and our world. Today and all the days ahead. We produce our machines in an energy- and CO<sub>2</sub>-neutral production environment in Sliedrecht. Our 2,238 solar panels supply us with renewable energy.

Our machines are designed in line with our ACT2 circular guidelines using high-quality and partly recycled sustainable materials. This ensures machines are easy to repair, refurbish, and recycle, reducing their environmental impact throughout their lifecycle.

When our machines are connected to ConnectMe, additional energy-saving benefits become evident. Customers can save up to 30% of energy through an adaptive energy-saving mode, on top of the regular pre-programmed energy-saving setting. ConnectMe analyzes user trends on the machines and automatically activates the energy-saving mode when appropriate, ensuring that the equipment remains operational whenever it is needed.

design*

# TAILOR TO YOUR NEEDS

We offer a wide variety of options and accessories to tailor your machine. Choose a coffee brewer or configure the machine to your customers' specific needs. Select the number of bean canisters, different canisters for milk powder, chocolate drink powder, plant-based products and more. Add a cabinet to hold a water cooler for cold still and/or sparkling water or for a waste guide. You can even add a payment system to your machine.

#### **About de Jong DUKE**

De Jong DUKE is a Dutch, family-owned business founded in 1897. We believe in living up to our promises and doing what we say we'll do. Continuity and a clear focus on the future are fundamental to our organization. From our production sites in the Netherlands and the US, we serve customers across the globe.

We are dedicated to creating innovative, reliable, and easy-to-use coffee machines for the out-of-home market. Our in-house engineers and software developers continuously develop our ConnectMe software and our coffee machines, to provide the best, most user-friendly coffee machine experiences. Our machines make high-quality coffee and serve the perfect cup every time.
